PRIVATE PILOT'S LICENCE (PPL)

Initial training introduces the candidate to flight in a single engine aeroplane and starts with general handling until a good proficiency is obtained. Great care is taken to ensure that the basics of aircraft control and airmanship are learnt thoroughly during this stage.

The next section covers practice in the airfield circuit where the candidate becomes familiar with airfield operations and skilled in normal and performance take off and landings. This part culminates in the first solo flight.

The next phase focuses on cross-country flight, which includes planning, visual and radio navigation, radio communication, practice diversions and emergency procedures, and operations at commercial airports. This part culminates in a solo cross-country flight of 270 km between 3 different airfields.

The final section consists of preparation and rehearsal for the PPL skill test. All manoeuvres are reviewed during this phase and the candidate's proficiency is raised to the standard required for the PPL flight test.

During the course the candidate prepares for and sits the PPL ground examinations and radio telephony verbal test.

There are 9 written ground exams during the course, all multiple choice.

All training takes place in a Cessna 152, a Tecnam or a Piper Warrior.

Minimum training hours to obtain a PPL are 45, which must include:

10 hours Solo, 27 hours Dual & Flight Skill Test.

There is no previous experience required, although a Civil Aviation Authority Medical Certificate is required before any solo flights are undertaken.

We have a EASA/CAA approved Doctor here at the Airfield every SUNDAY by appointment. See Reception for details.

Special Offers Available 2018

Bulk Payment Discounts Available For The Cessna 152

We are pleased to offer the following:

Pay for 20 hours dual in advance and receive a 5% discount

£3401.00

Pay for 45 hours in advance and receive a 10% discount

CAA approved Multi Engine, Night and IMC Ratings.

If training is not completed, the balance of the account will be refunded. But if a discount was applied at the start of the course, the training charges already applied will then be charged at full training rates.

LIGHT AIRCRAFT PILOT'S LICENCE (LAPL)

The EASA Light Aircraft Pilot's Licence is a non-expiring 'lifetime' licence with no-expiring ratings, making it ideal for those pilots with lapsed PPLs. It is also a good way for existing glider pilots to convert to aeroplanes.

Minimum hours to obtain a LAPL are 30 hours (not including skills test), which must include at least:

6 hours Solo, 15 hours Dual

As with the PPL, there are 9 written ground exams during the course, all multiple choice and radio telephony verbal test. A LAPL medical certificate is also required for the LAPL.

Special Offers Available 2018

Bulk Payment Discounts Available For The Cessna 152

Pay for 30 hours in advance and receive a 5% discount

PPL, CPL, Flight Instructor Courses and Instrument Ratings
CAA approved Multi Engine, Night and IMC Ratings.

QUESTIONS & ANSWERS

CAN ANYONE LEARN TO FLY?

Yes

HOW CAN I TELL IF I AM SUITABLE FOR TRAINING?

We recommend that before committing yourself to a complete course, you take an introductory flying lesson; in this way you will be able to see whether you like flying. We find that a person with a wish to fly, will want to commit themselves to a PPL Course at Stapleford.

IS THERE A MEDICAL TEST AND CAN I WEAR GLASSES?

In order to qualify for a PPL you need to be over the age of seventeen, although you can take lessons from fourteen. There is no upper age limit, so long as you can meet the medical requirements, which are not excessively stringent. Glasses can be worn and do not prevent a prospective pilot from flying, although you need to produce a six-month prescription and an extra pair of glasses. Medicals take place on Saturdays and Sundays at the Airfield, please contact our Reception for booking details.

WHAT ARE THE PRIVILEGES OF THE PRIVATE PILOTS LICENCE?

Once gained, your PPL will enable you to fly single engine piston aircraft. You may carry your family and friends on flights worldwide. Later you may wish to add further qualifications to your licence, i.e. a Night Rating, Multi-engine or an Instrument Rating. This allows you to fly in cloud and airspace normally reserved for commercial aircraft. We can provide training for all of these at Stapleford and we will be happy to supply you with further information.

DO YOU NEED SPECIAL CLOTHING?

"No" – Cockpit comfort in all our training aircraft is similar to that of a modern day family car, any comfortable clothing will do, however we recommend ladies wear trousers rather than a skirt and high heels are not practical.

WILL I NEED SPECIAL EQUIPMENT, MAPS, BOOKS ETC?

“Yes” we have a Pilots Shop at Stapleford, Gerran Aviation, which is able to supply all your aeronautical needs. Your Instructor will advise you on any purchases you may require.

ARE THE AIRCRAFT WELL MAINTAINED?

We have twelve Cessna 152, three Tecnams and eight PA 28 Warrior aircraft in our fleet, all long proven to be the safest and easiest light aircraft to fly. We do also have PA28R Arrows for PPL hire and training. Our aircraft are maintained to a Public Transport Category at our own CAA/JAA approved Maintenance Department.

SO HOW MUCH DOES IT COST?

The cost of gaining your PPL is not as expensive as you may think especially if you compare it with other activities such as skiing or golf. If you wish to pay for a complete course of 45 hours in advance we are able to offer you a 10% discount on the hourly rate. This is inclusive of all home landing fees, fuel and VAT. There is an annual club membership fee of £120.00 plus an initial £15.00 joining fee.

WRITTEN EXAMS

There are 9 written exams, ground school may be available please ask Reception for details. You may sit the exams at Stapleford, again ask Reception for details. There are four full time examiners and two part-time examiners at Stapleford, the cost is £25.00 per exam.
